# Start With Proper Business Registration

## Tax Identification

Obtain your TIN from Ghana Revenue Authority before proceeding with any payroll setup

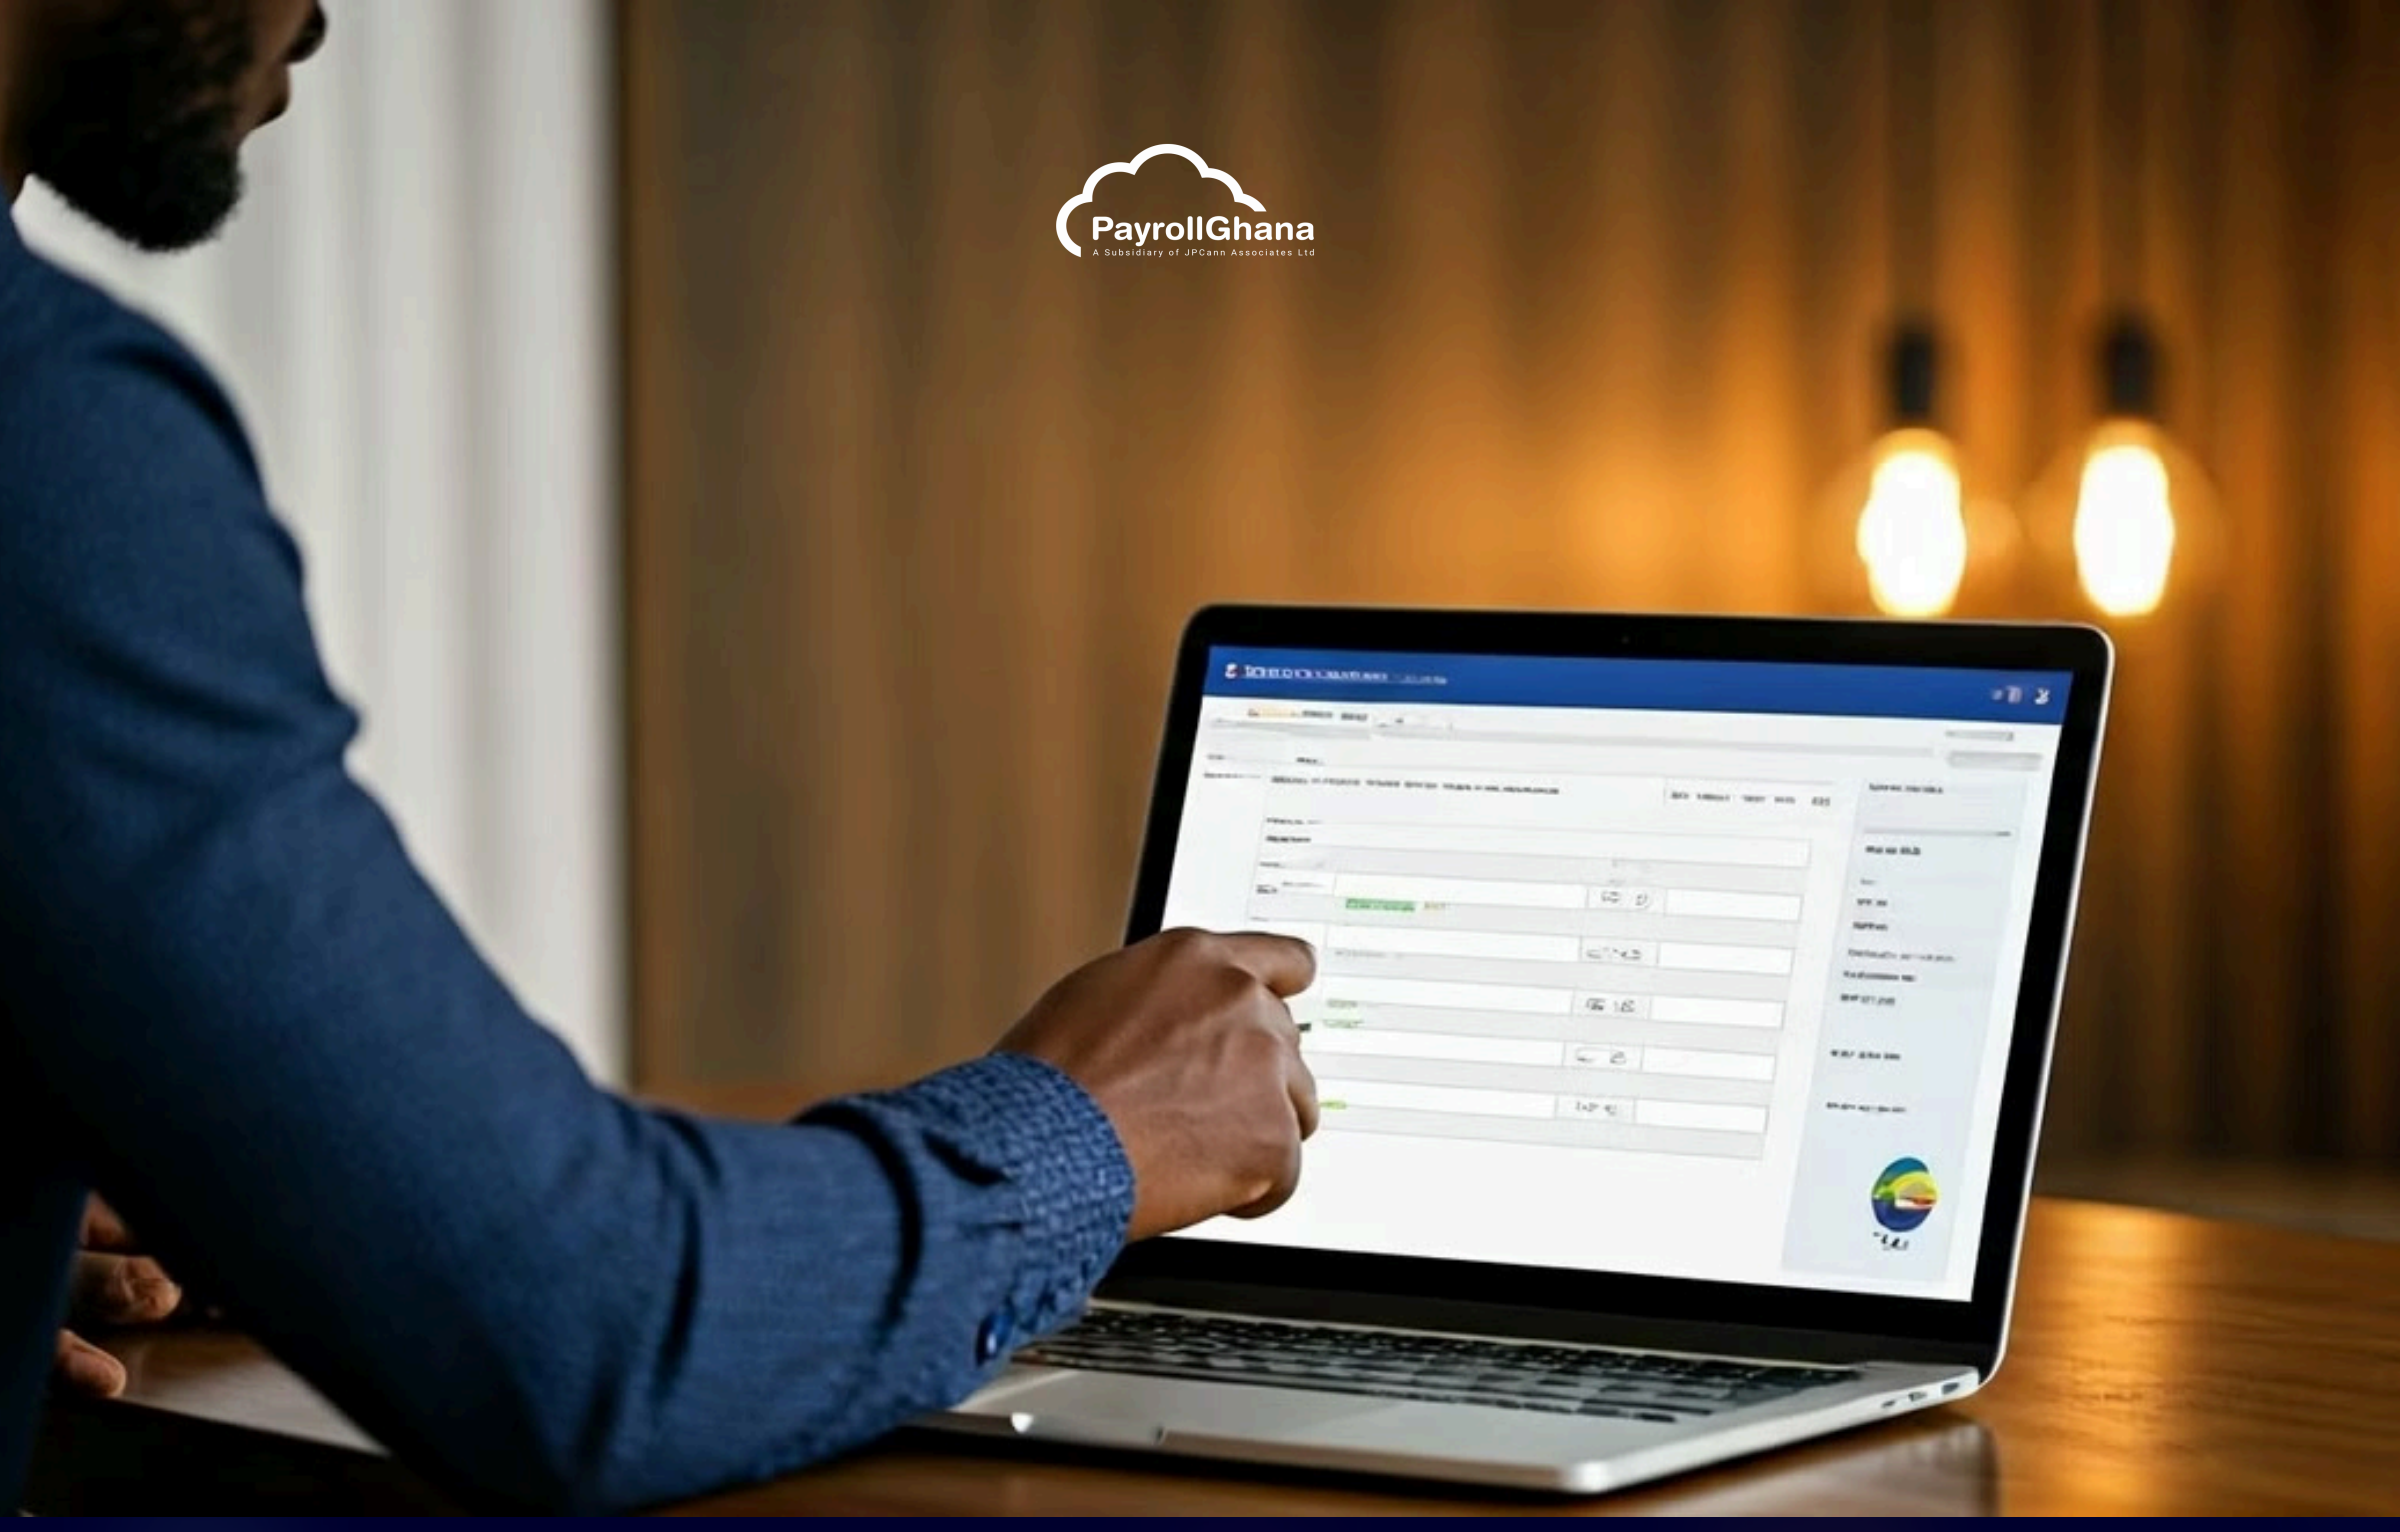
## SSNIT Registration

Register with Social Security within 14 days of hiring your first employee

## Legal Compliance

Ensure all registrations are complete to avoid penalties from regulatory bodies

These foundational steps ensure your business operates legally within Ghana's regulatory framework, establishing the groundwork for your automated payroll system.



# Set Up Your PayrollGhana Account

### Choose Subscription

Select the appropriate subscription package based on your employee headcount

### Organization Details

Enter your business name, TIN, SSNIT numbers, contact email and upload your company logo

### Configure Features

Set up allowances, benefits-in-kind, and voluntary deductions specific to your company policies

# Collect Essential Employee Information

## Personal Details

- Full name and staff ID
- Contact information
- Emergency contacts
- Employment start date

## Financial Information

- TIN numbers
- SSNIT registration details
- Bank account information
- Salary structure

## Customisation

- Individual salary details
- Position-specific allowances
- Voluntary deduction choices

Accurate and complete employee information ensures proper tax calculations and prevents payment delays or compliance issues.

# Understand the Pre-Configured Tax Settings

PayrollGhana comes with Ghana's current tax structure already configured, saving you time and reducing errors. The system automatically applies the correct tax brackets from 0% to 35% based on each employee's income level.

**0%**

First Income Bracket

For lowest earners

**35%**

Highest Bracket

For top income levels

**100%**

Tax Compliance

With automated calculations

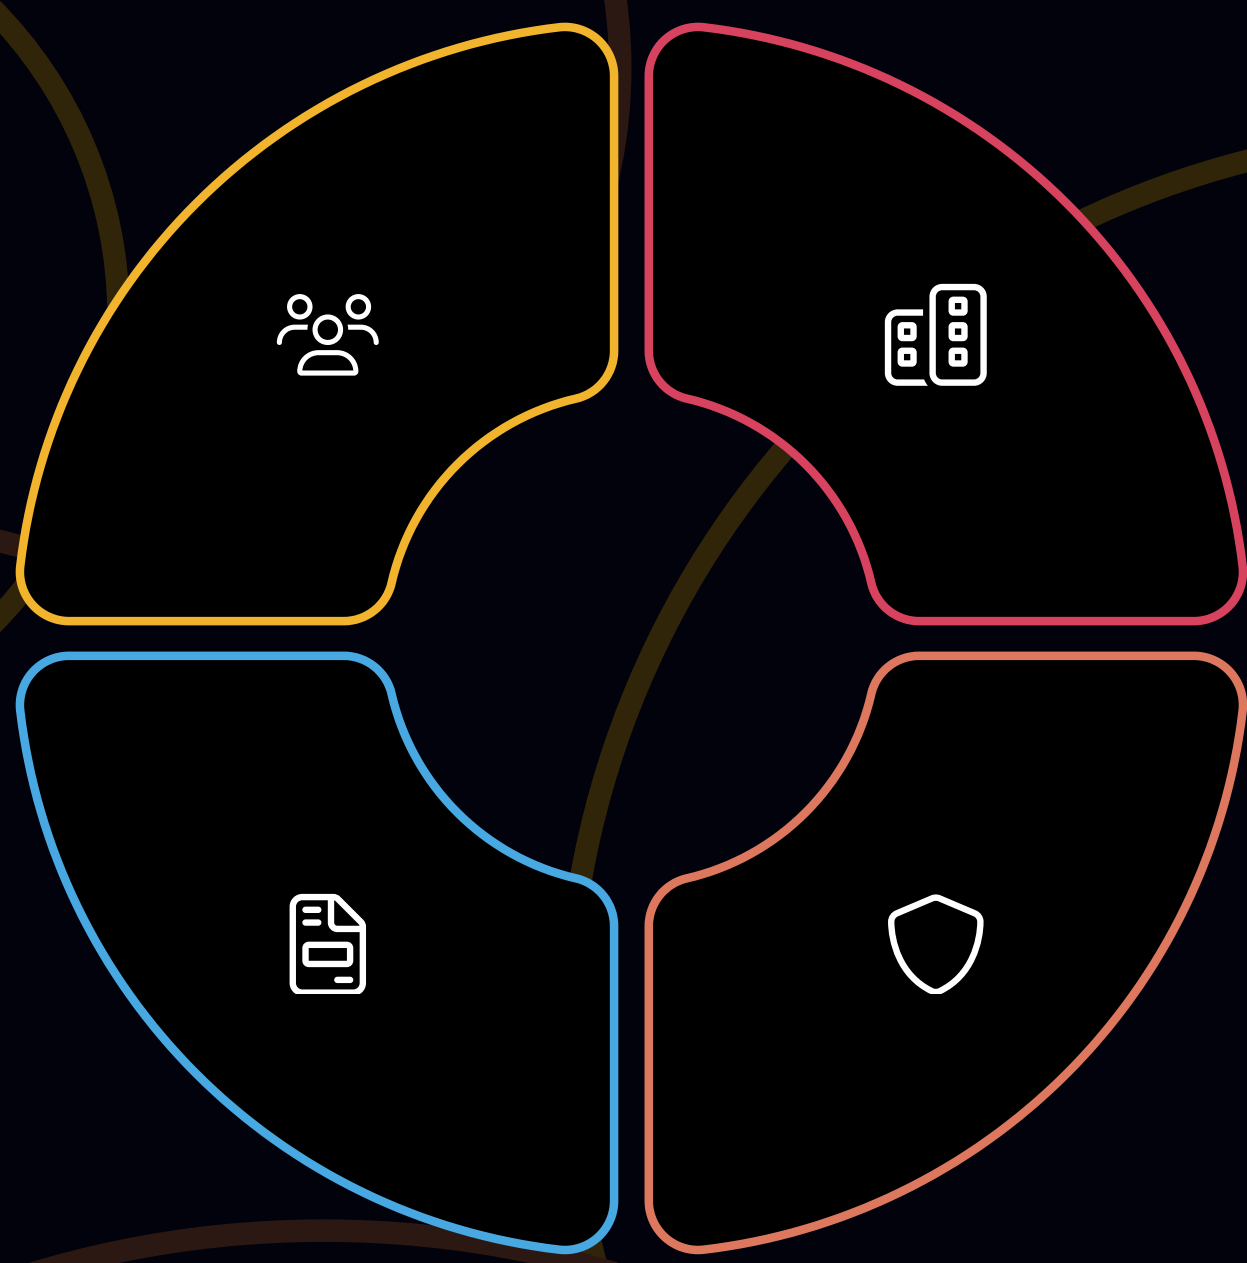
# Configure SSNIT and Statutory Deductions



## Employee Contribution

5.5% of gross salary automatically calculated and deducted

## Employer Contribution

13% of employee's salary tracked for employer payments

## Tier 3 Pension

Optional voluntary pension contributions can be configured

## Other Deductions

Set up loans, union dues, and other custom deductions

Properly configured statutory deductions ensure compliance with Ghana's social security laws while giving employees peace of mind about their future.

# Create Your Company's Pay Schedule

## Choose Frequency

Select monthly payments (most common in Ghana) or custom schedule

## Set Cut-Off Dates

Establish when payroll data must be finalized each period

## Define Pay Dates

Schedule when employees will receive their salaries

A consistent pay schedule builds trust with employees and helps with your company's cash flow planning.

# Test Before Going Live

## Sample Processing

Run a test payroll with actual employee data to verify all calculations are working correctly

## Verification Steps

Double-check tax deductions, SSNIT contributions, and final net pay amounts for accuracy

## Adjustments

Fine-tune any settings that need correction before processing real payments

Thorough testing prevents costly errors and ensures your first real payroll runs smoothly without issues that could affect employee satisfaction.

# Launch and Maintain Compliance

## Go Live

Begin processing actual employee payrolls with confidence

## Monthly Filing

Submit PAYE returns to GRA by the 15th of each following month

## Regular Updates

Stay current with Ghana's evolving labour and tax regulations

PayrollGhana automatically generates the reports you need for compliance, but you're still responsible for timely submissions. The software updates tax rates and rules as they change, helping you stay compliant with minimal effort.
